

Getting Started

1. Download the Exporter installation from http://www.skyprintware.com/Download/EXPORTER_INSTALL.ZIP

Exporter trial prints to pre-printed stationery. If you have a requirement where you do not want to entirely use pre-printed stationery, e.g. to email a pdf (Acrobat) version of a form such as the Invoice, Packing List or other document, then this can be provided.

Print Form Stationery Note: Exporter uses the short form of the SITPRO documents e.g. Invoice V5. All forms are A4. If you need to marginally move

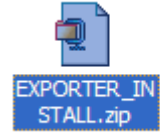

The Free Text form : is used for situations where you may, for example, need a non-standard Certificate, or want to send a simple FAX to a consignee. Basic Shipping details are included, and you can edit the form headings:.

Terms: Delivery terms included in the trial lookup usually begin with lowercase d. Payment terms included in the lookup usually begin with p. Inco terms are available.

To Install Exporter Follow the images below

1. You will find it easier to download the zip version of Exporter_Install.exe, as Firewalls can prevent you downloading programs, but will accept winzip format.

Winzip format is supported by Winzip, available from www.winzip.com. Your version of Windows may show the the icon as "zipper", perhaps on a grey background. This means you already have an alternative means of extracting the zipped files.

	<p>This is what the database manager EXPORTER_BDE.zip looks like</p>		<p>This is what the extracted Exporter_Bde.exe install program looks like. Once it is copied onto the C:\drive you can run it (Mouse: left double click on the icon)</p>
	<p>This is what the Winzip Exporter_Install.zip icon looks like</p>		<p>This is what the Exporter_Install.exe looks like. Once it is copied onto the C:\ drive, run it (Mouse: Left double click).</p>

2. Save the downloaded file Exporter_Install.zip on your Desktop(so you know where to find it afterwards).

Step 1: Click Extract

Step 1: From the "browse options" select DESKTOP so that after extract, you can easily find the extracted files

Step 2: Click Extract

NOTE: Extracted programs must be run from the target client PC. Do NOT run programs directly from inside the zip files, or on a network server.

After Extraction:
Step 3: Run Exporter_BDE.exe (the database manager) . Accept all the default settings.
Step 4: Run Exporter_Install.exe (Exporter program install) . Accept all the default settings.

3. Note that the installer must be run on a C:\ drive. It will not work if run on an networked drive.

4. You can simply drag 'n drop the winzip file and it will immediately ask if you want to extract the file, and where to.

Step 2: You will get the option of where you want the file extracted to. The best place is on your desktop, so that you can easily find it. Note: It must be copied onto the C:\ Drive. It cannot run from a network drive.

Step 1: If you drag n drop the winzip icon, you will see this menu

Step 3: Run the extracted file Exporter_Install.exe. Accept the defaults.

5. Two separate programs are included in the zip file.

Exporter_Bde.exe and Exporter_Install.exe.

Extract the file Exporter_Bde.exe onto your desktop (again, so you can find afterwards)

Extract the file Exporter_Install.exe onto your desktop (again, so you can find afterwards)

6.Run Exporter_Bde.exe, and accept the defaults.

7.Run Exporter_Install.exe, and accept the defaults.

Error: Should you get an intallation error, reboot(start the PC again). Go to your Control Panel, Add/remove programs, and remove Exporter. Now got to the C:\ Drive and delete the folders and sub-folders below (if they are there)

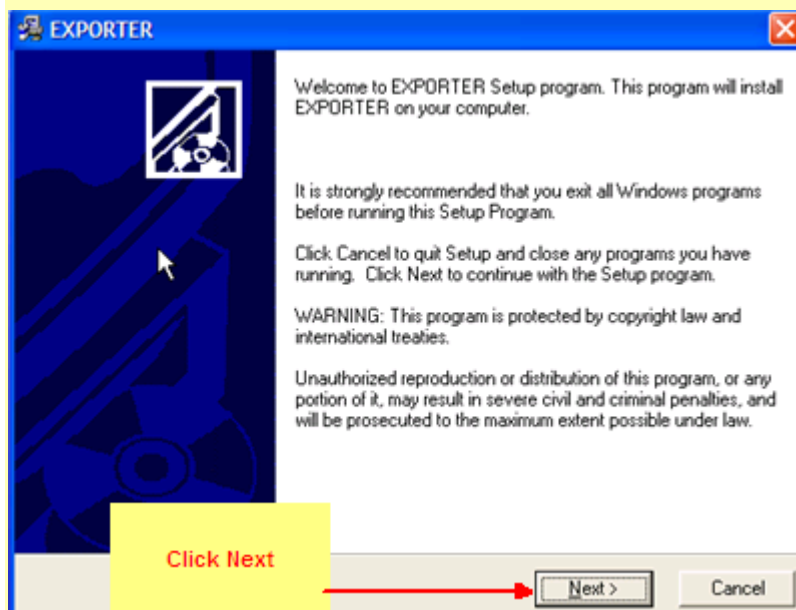

C:\IDAPI

C\Exporter

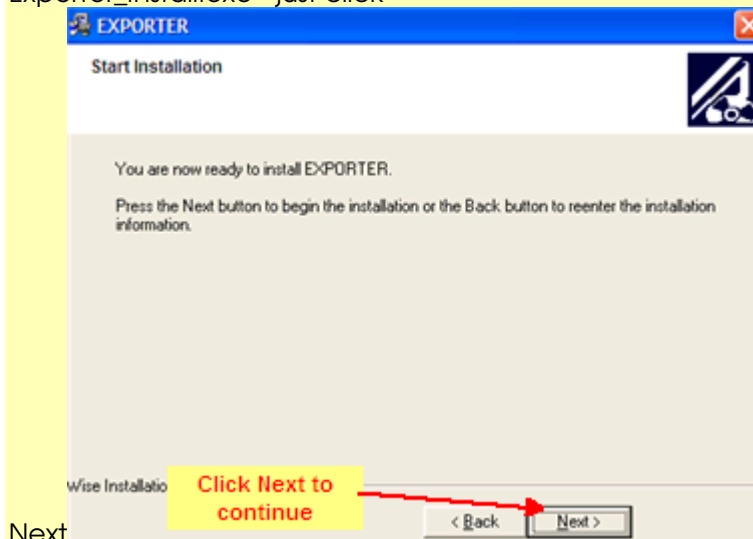

C:\Program Files\Borland

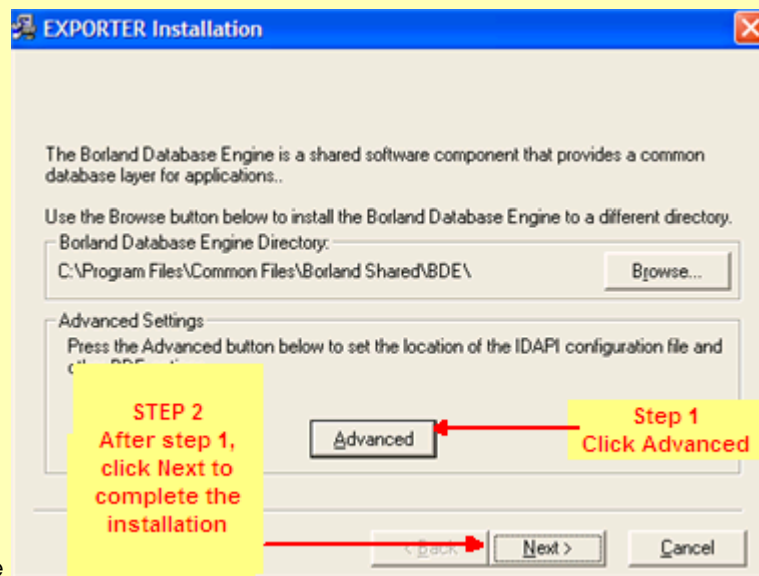

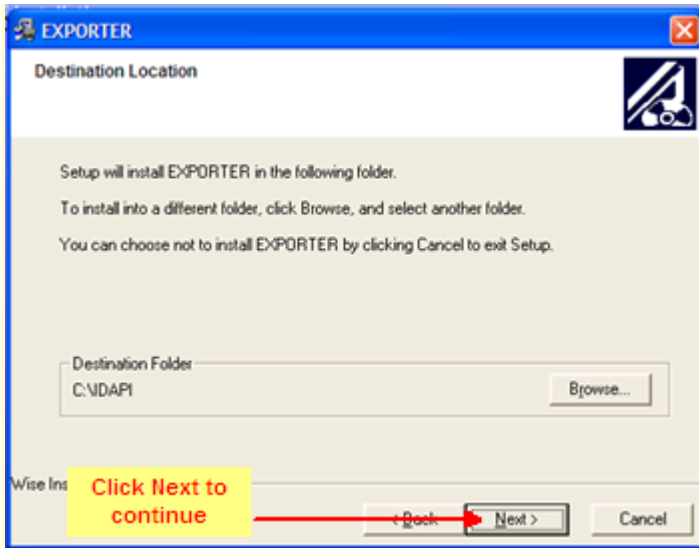

C:\Program Files\Common Files\Borland Shared

Run the Install routine again.

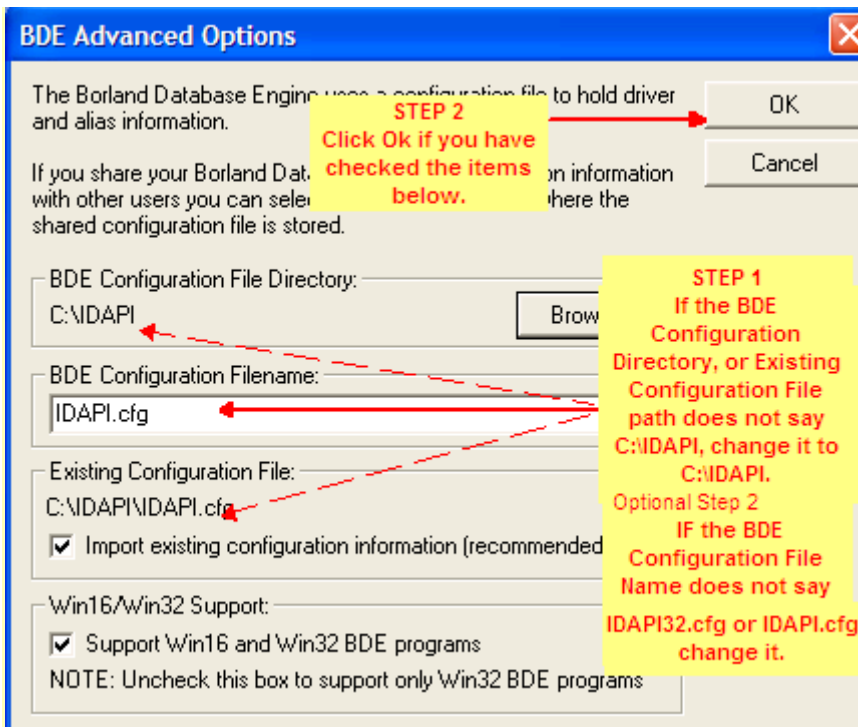

Exporter_Install.exe - just click

Exporter_Bde.exe

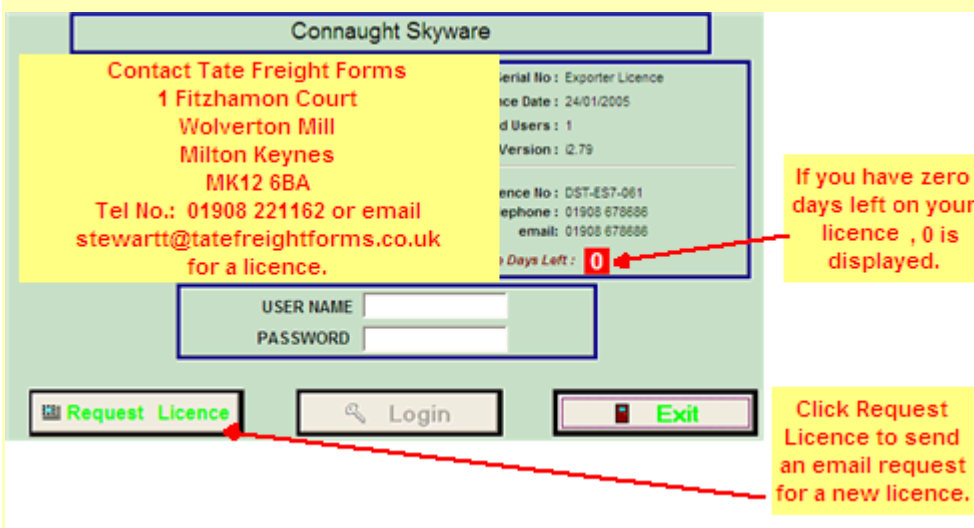

Note: You do not have to change Idapi.cfg if it says idapi32.cfg. Just accept the defaults and it will install correctly.

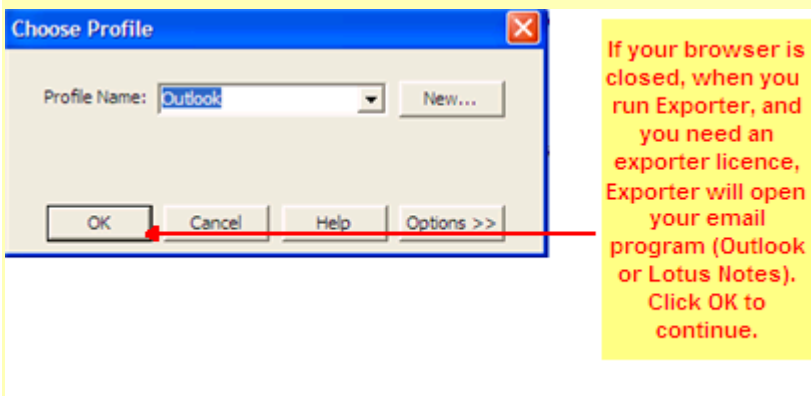

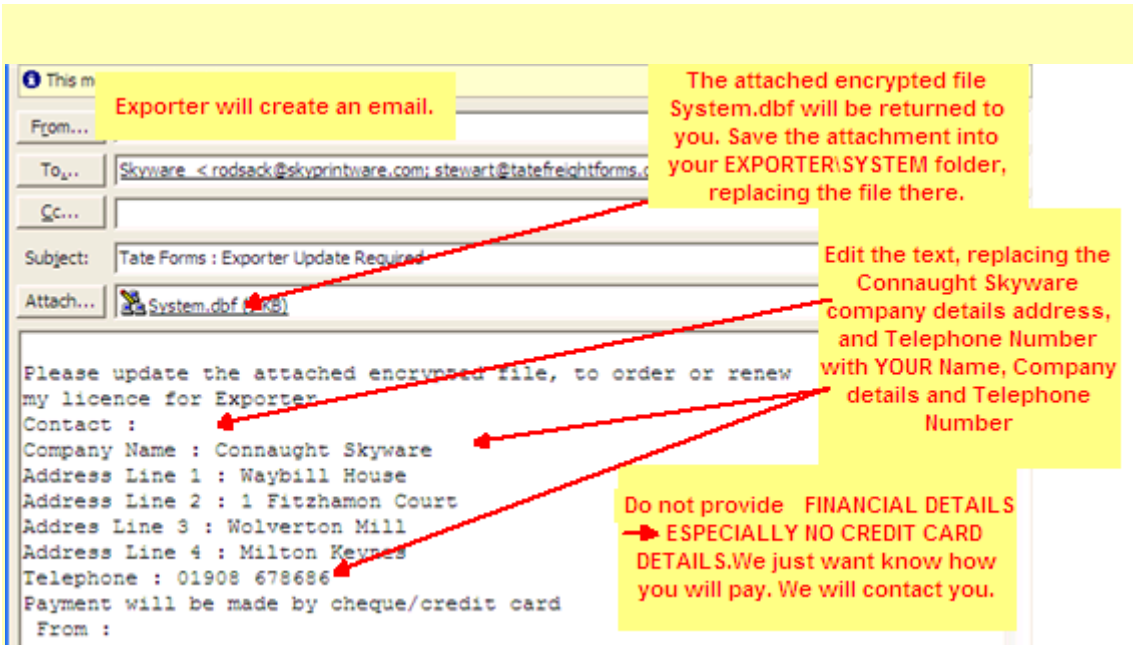

After you have clicked OK, the installation will complete. The final installation message will be "Synchronizing BDE".

Now run Exporter for the first time. Exporter will suggest that you email an attached file to Tate Freight Forms. It will suggest this twice, but you can do this at a later stage if you wish.

However, Exporter will remain locked until you have requested licence. Please contact Tate Freight Forms if in doubt. The contact details are below.

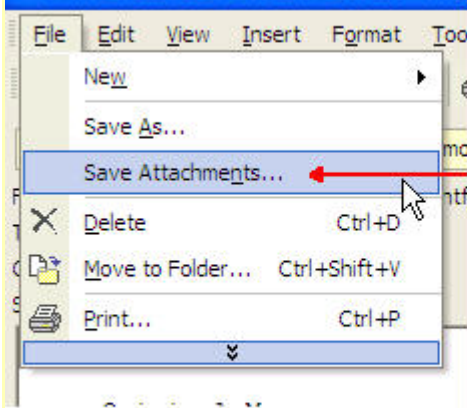

You will need to email Tate Freight Forms for your licence.

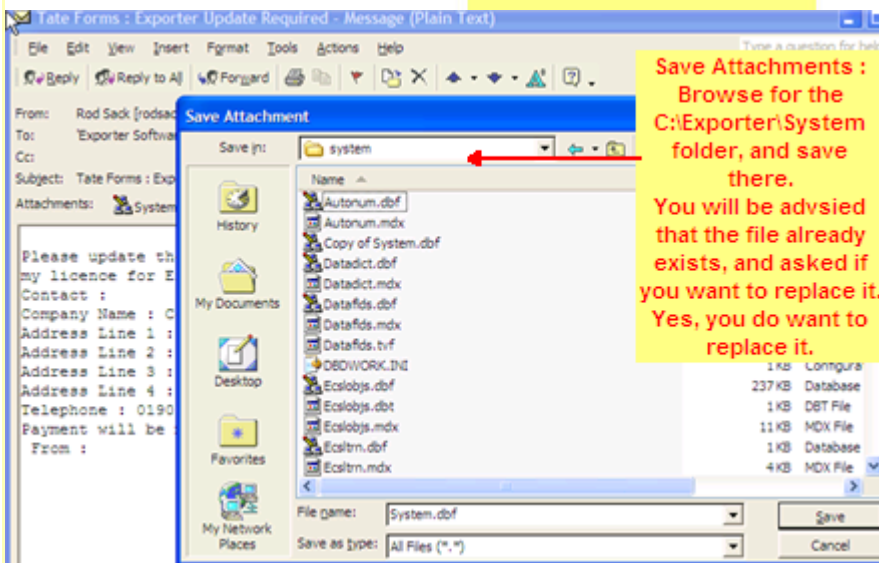

When your licence is returned by email, Save the attachment system.dbf into the folder C:\Exporter\System.
 the exampe below is from the Outlook File menu, Save Attachments..

The preferred option : Just contact Tate Freight Forms on (0044) 01908 221162 to arrange the update.

FW: LICENCE FOR EXPORTER - Message

- Step 1.
Click Save attachments
- Step 2.
Browse for the folder
C:\EXPORTER\SYSTEM
- Step 3
Save the attachment
SYSTEM.dbf into the folder
- Step 4
You will get a message
replace existing file?
Accept This.
- Step 5
Your licence will now be
activated.

- Save Attachments :
Browse for the
C:\Exporter\System
folder, and save
there.
- You will be advsied
that the file already
exists, and asked if
you want to replace it.
Yes, you do want to
replace it.

Note: If you run the install programs again, your licence will be replaced by the original licence, so you will need to replce the licence from your email, again.

Important : In the meantime, you can look through the Help file which is C:\Exporter\Help\Exporter.chm

Simply left double click on Exporter.chm for more information about **how to login**.

You need to look at the help file, to find the user login details.

Look at the section **Quick Step-by-Step**

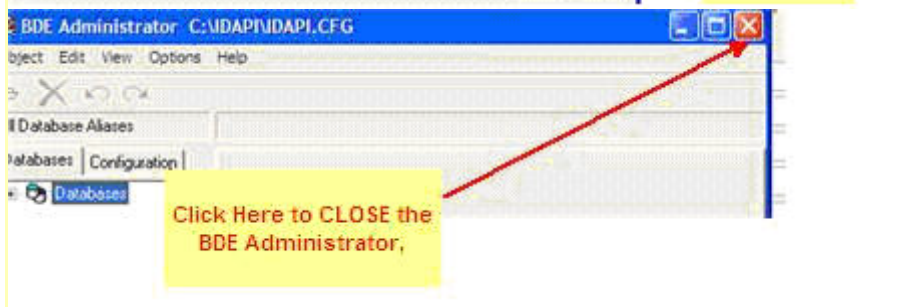

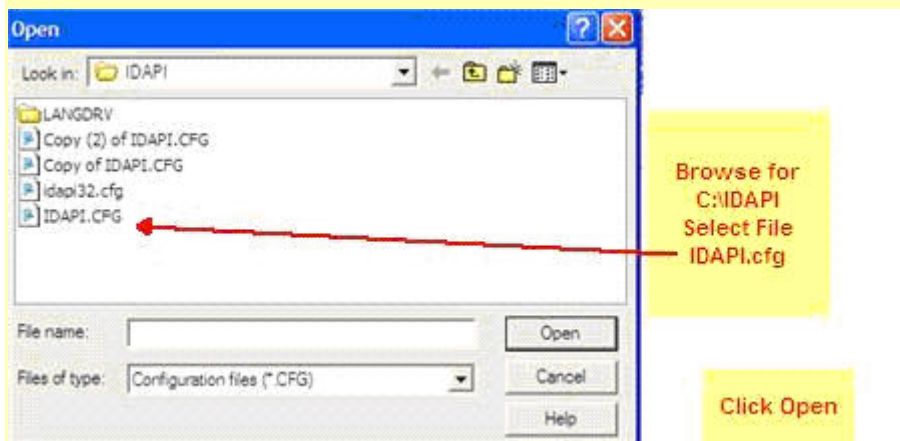

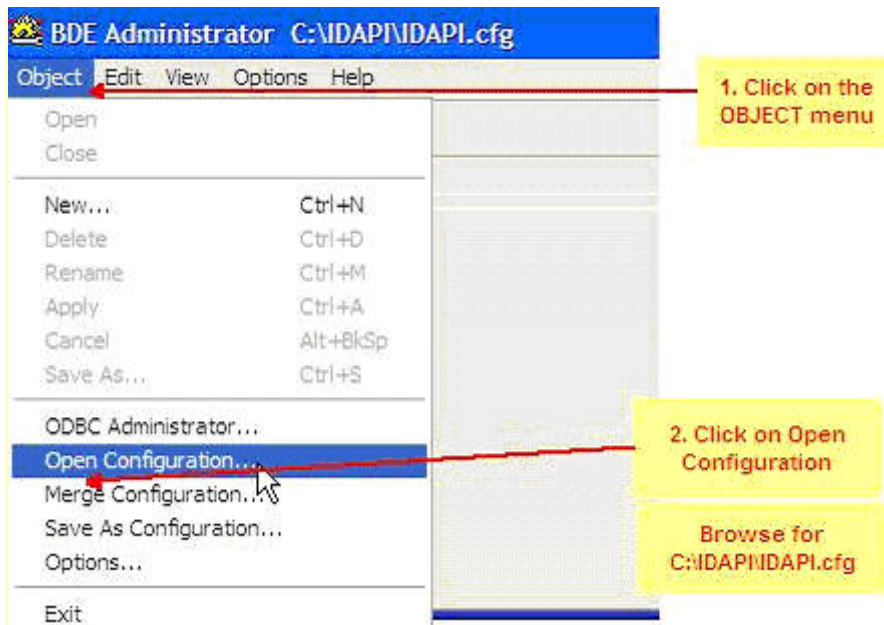

Errors:

If you get an install error when installing the Database Manager, the following will help:

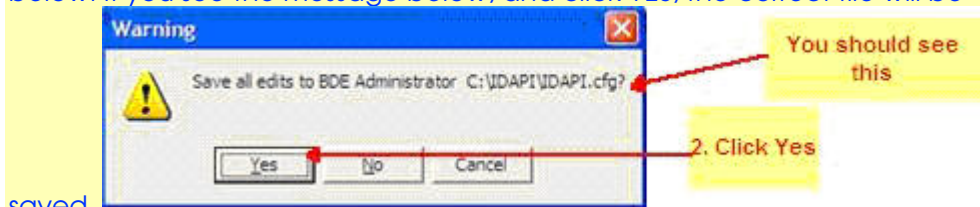

To correct the problem – go into the Windows Control Panel (Start Menu -> Control Panel

Click on the BDE Administrator ICON (shown left)

Now click the close button. If you have done it right, you will get a message like the one below: If you see the message below, and click YES, the correct file will be

saved.

Error 2: You may see a message on the Invoice screen which informs you that a bitmap dst1.bmp cannot be found – its' just a default company logo, so please ignore this. copyright Connaught Skyware
